Skills

- API integration
- Software development
- Python proficiency
- HTML proficiency
- MongoDB expertise
- Agile methodology
- Project management
- Expertise in JavaScript
- C++ proficiency
- React expertise
- Web development
- System design

Experience

Computer Programmer

Bossmode.co , Little Elm, TX

May 2026 - Current

- Designed and launched a fully responsive teaser website for a pre-launch functional beverage brand, complete with email capture and waitlist integration
- Engineered a seamless deployment pipeline using Cloudflare Pages and GitHub, ensuring fast, reliable delivery across all devices
- Built a cohesive brand experience from the ground up — translating a bold visual identity into a polished, production-ready web presence
- Developed reusable React components with a custom design system, keeping the codebase clean and scalable without a build step
- Currently building a second site for the same client — an investor pitch platform for high-profile investment conversations.

Computer Programmer

Bit Of Logic, Valley View, TX

July 2024 - April 2026

- Engineered a powerful, user-friendly reporting platform that transforms raw engine test stand data into actionable insights
- Designed intuitive interfaces and flexible filtering tools that empower users to customize reports without writing a single line of code
- Streamlined data flow by integrating with a centralized SQL database, ensuring fast, reliable access to real-time test data
- Built smart reporting features that support deep technical analysis and drive better decision-making across engineering and R&D teams

- Bridged the gap between data and usability—translating complex data sets into clear, digestible visual reports that actually get used

Customer Service Crew Member

Promenade Artisan Foods, Trenton MI

September 2023 - September 2024

Service Crew Member

- Prepared and served a variety of beverages while maintaining quality and efficiency.
- Accurately took customer orders and ensured timely service.
- Managed cashier duties, including processing payments and handling cash transactions.
- Assisted in food preparation, ensuring adherence to safety and hygiene standards.
- Coordinated order pickups to provide a seamless customer experience.
- Maintained a clean and organized work environment while delivering excellent customer service.

Computer Programmer (Junior and Senior Years)

First Robotics Team 815, Allen Park, MI

September 2021 - April 2023

High School Robotics Programmer (Unpaid Internship)
Junior & Senior Year

- Collaborated with the high school computer programming team to develop software for two autonomous robots using JavaScript.
- Designed and implemented code to enable the robots to perform predefined tasks within a set timeframe.
- Programmed both robots to operate autonomously and integrate with a standard Xbox controller for manual control.
- Gained hands-on experience in problem-solving, algorithm development, and teamwork.
- Contributed to the successful execution of robotics projects over two academic years.

Education

Certification in Computer Science June 2026

Massachusetts Institute of Technology, Boston, MA

Professional Certificate in Coding: Full Stack Development with MERN Awarded 48 Continuing Education Units (CEUs)

- Completed an intensive program in full-stack web development using the MERN stack.
- Built fully functional websites from scratch using JavaScript, HTML, and CSS.
- Developed proficiency in front-end frameworks like React and backend technologies such as MongoDB and Docker.
- Acquired a strong foundation in client-side and server-side development, including database management, API integration, and deployment strategies.

High School Diploma May 2023

Intercity-Baptist Highschool, Allen Park, MI

Certificate in Computer Programming July 2022

University of Michigan, Dearborn, Dearborn, MI

Python Programming Certification (Summer Dual-Enrollment Course, Junior Year of High School)

- Completed an intensive summer college course in Python programming.
- Progressed from fundamental concepts to advanced coding techniques.
- Developed a strong understanding of: Python syntax, Data structures, Algorithms
- Gained hands-on experience in problem-solving and software development.
- Enhanced programming proficiency through practical projects and real-world applications.
